UnbridledACTS

& The Eagle's Nest

UnbridledACTS is a registered 501(c)3 non-profit ministry. We believe the simple truth that love is the true mark of maturity.

Our mandate is to Love people to Life. We do this through community, care, and connections.

We create opportunities for authentic, life-giving, community engagement not only with the Eagle's Nest, but with our ministry partnerships, both domestically and internationally, as well as with those who work with our various for-profit Unbridled companies.

We help provide care and support for both the emotional and practical needs of those with whom we connect and engage on a regular basis, and for others as needs arise.

We are continuously expanding our reach through new connections, while maintaining our current relationships, with the heart and mindset of Loving people to Life.

A commissioned painting you'll see in the home

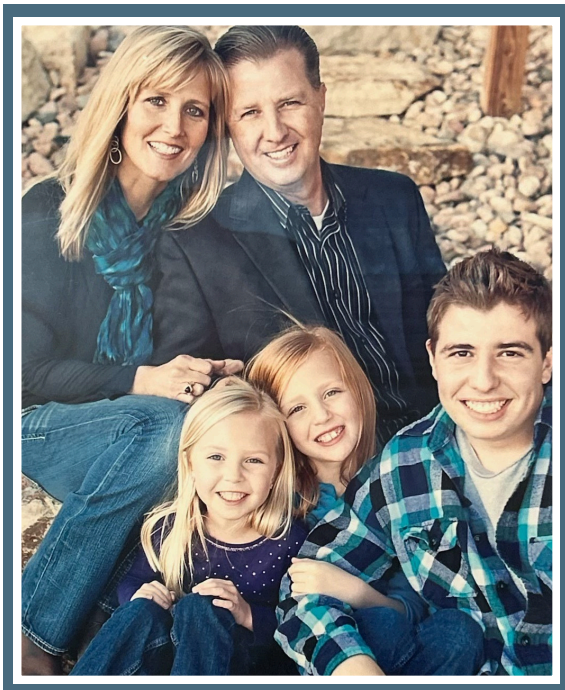

UnbridledACTS started in 2001 alongside Unbridled Solutions. Community life began in Elizabeth in 2008, when founders Stan and Cindy Bullis and their three children received, renovated, and opened the Doud House—the first of two community homes created to provide women in need with a safe, family-style environment for rest and healing.

The second home, The Eagle's Nest, was completed in 2013 and served as the community's home until 2018.

Eagle's Nest is now a retreat home available for individuals and groups to come away and rest, dream, plan, play, strategize, create, celebrate, and prioritize relationships and family.

We hope and pray that you will be deeply impacted by your stay, and that you'll leave feeling refreshed, with renewed passion and vision, and with strengthened relational connections. May you come to a deeper awareness of the power of Love to transform your life, and as a result, the lives of those whom your life touches.
